**February 22nd: Training—Shelly Redovan**

**February 22nd: Legislation Days, Tallahassee**

News from Susan, HR: I am pleased to announce that Jason Cull has been hired as the Aquatic Field Supervisor and he started January 18, 2016. Jason will report to Kevin Watts and will be supervising Keith Andreu, Aquatic Technician, Jeremy Ford, Aquatic Technician, Ken Sonne, Aquatic Technician and Billy Colon, Aquaculture Technician. Please join me in making Jason feel welcome.

Florida Mosquito Control Association had a successful meeting January 11th through the 14th at our Districts. This meeting was under the direction of Shelly Redovan, Mark Latham, Sandy Gross and Brian Cotterill. An approximate amount of students was 176 which included great speakers and vendors that are applicable to mosquito control. We had a large contingent of military personnel that attended the meeting this year. We had a spray demonstration from the large C130 Air Force plane which is always a treat to watch.

We wish to thank our crew for the cooking and cleaning up during the cold days that we had during this meeting. Also, a big thank you to Keith Lowe and the IT crew for setting up computers, etc. All of these working parts make a successful and working-smooth meeting.

## 2015 Field Activity
