

LCMCD SERVICES REQUESTS

Fight the Bite

STEP 1

Submit a Service Request

A service request is submitted by citizens online or by phone.

[Submit a Request Online](#)

-or-

[Call \(239\) 694-2174](tel:2396942174)

STEP 2

Inspection

An inspector is assigned to that location to complete a thorough inspection. The inspector will check the area for breeding sites and complete landing rates for adult mosquitoes. Details of this inspection are submitted into the LCMCD database for mission planning.

STEP 3

Data Analysis

The data compiled from service requests, along with daily inspections and trapping programs, help to determine when and where to dispatch mosquito control missions.
