

# PROTECT YOUR PETS!

## FIGHT THE BITE

Mosquitoes can transmit dog heartworm, which is a parasite that can cause heart failure, lung disease, other organ damage, and possible death.

**UPDATE HEARTWORM TREATMENTS**  
CONSULT WITH YOUR VETERINARIAN TO DETERMINE WHICH PREVENTATIVE HEARTWORM TREATMENT IS RIGHT FOR YOUR PET

**AVOID PEAK MOSQUITO ACTIVITY**  
IF POSSIBLE, AVOID HAVING YOUR PETS OUTSIDE DURING TIMES OF PEAK MOSQUITO ACTIVITY (DAWN AND DUSK)

**USE REPELLENTS SAFE FOR YOUR DOG**  
LEMON EUCALYPTUS OIL IS ONE MOSQUITO REPELLENT THAT IS SAFE FOR BOTH HUMANS AND DOGS

**DUMP ANY STAGNANT WATER FROM CONTAINERS**  
ELIMINATE PLACES FOR MOSQUITOES TO GROW AROUND YOUR HOUSE

MOSQUITOES ARE ONE OF THE GREATEST THREATS TO YOUR PETS

**5 in 10** DOGS LEFT UNTREATED MAY BECOME INFECTED
